

02 AI Inbox Manager

Email is where the founder's week silently disappears. AI reads, sorts and prepares it before the founder ever opens it.

01 Trigger

7:00 AM daily, recipient's timezone

02 Fetch new mail

All connected inboxes since last run, via mail API

03 Filter the noise

Newsletters, receipts and calendar traffic removed before AI runs

04 Classify each message

One AI pass. Returns sender relationship, request, deadline, value and urgency

05 Route by urgency and type

Four outcomes, one per message
