

19 AI Recruiting and Onboarding Assistant

Hiring consumes founder time in the least leveraged way possible: reading CVs and coordinating diaries.

01 Open the role

Requirements captured once, in writing

02 Screen against them

CVs assessed against the actual stated requirements

03 Rank with reasoning

Every candidate scored, with the reasoning shown

04 Sort the pipeline

Only genuine candidates reach a human

- Strong match** → Advanced to interview
- Partial match** → Held for human review
- Not a fit** → Declined with a stated reason
- Flight risk** → Flagged before offer

05 Coordinate interviews

Scheduling handled across panel members and time zones

06 Support the decision

Structured scorecards collected from every interviewer

07 Onboard on day one

Accounts, equipment, first-week plan and buddy assigned

A person makes every hiring decision. The screening reasons are always visible.

PRIMARY PAYOFF Hiring stops eating the founder's week.
